

Mandatory for ALL Drivers

To race with us at RPM Speedway all drivers will be required to purchase a RaceCeiver at the price of **\$131**. Due to the expense, purchasers will be allowed to pay out the cost over **4 weeks** at **\$35 per week**. The full amount is to be **paid-in-full within the month**.

RaceCeivers and earpieces will be available for sale at the main ticket window. Additional set of earpieces will be offered throughout the race season for \$25. Extra batteries will also on hand for purchase.

Why are RaceCeivers important? This small communication device is revolutionizing the industry, making the sport safer for both the drivers and officials. It saves time by allowing officials to talk to all the drivers at the same time it lets you get on to more racing. The officials can warn drivers about accidents or debris on the track.
